DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-13 and 30-36, drawn to a thin speaker, classified in class 181/, subclass 141.
 - II. Claims 14-27, drawn to a kiosk, classified in class 235, subclass 380.
 - III. Claims 28-29, drawn to a fuel dispensing apparatus, classified in class 700, subclass 231.
2. The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because although independent claim 14 recites similar claim language as presented in claim 1, the rigid enclosure presented in claim 14 is directed to a housing containing not only a lens and magnetic driver but also a display device making that rigid enclosure separate and distinct from the rigid enclosure of the thin speaker. The subcombination has separate utility such as a speaker for a outdoor announcement system, ATMs, amusement park attractions or any other communication system that is provided in an outdoor weather environment.

Inventions I and III are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the

subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because although independent claim 28 recites similar claim language as presented in claim 1, the rigid enclosure presented in claim 28 is directed to a housing containing not only a lens and magnetic driver but also a display device, specifically with an LCD module, making that rigid enclosure for the fuel dispenser separate and distinct from the rigid enclosure of a thin speaker. The subcombination has separate utility such as a speaker for an outdoor announcement system, ATMs, amusement park attractions or any other communication system that is provided in an outdoor weather environment.

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

4. Because these inventions are distinct for the reasons given above and the search required for Group II and III is not required for Group I, restriction for examination purposes as indicated is proper.

5. A telephone call was made to Steve Terranova on 7/16/03 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Art Unit: 2125

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Paul L Rodriguez whose telephone number is (703) 305-7399. The examiner can normally be reached on 6:00 - 4:30 T-F.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Leo P Picard can be reached on (703) 308-0538.
